

‘Early lunch’ good test scores reward

Students hit goals

Students at Goodland High School who earned an “early lunch” gathered in the gym on Wednesday, Feb. 23.

The early lunch was a reward for over half of the 209 freshmen, sophomores and juniors who took the Iowa Test of Basic Skills over the past two years. Over half, 114 (55 percent), qualified for the early lunch by either improving their composite score over the previous year, or scoring in the 90th percentile range for both years.

The early lunch gave the students and extra half hour, and most left campus for lunch.

The reward is part of the “Get ‘r Done” campaign on high expectations sponsored by the Goodland High School improvement committee.

Those who got the early lunch included:
