

# ***Aquila and Goodland***

## **Working Together**

For many years, Aquila has supported progress in Goodland, delivering safe, reliable, competitively priced natural gas. We've also helped to make your community an even better place to live:

- Our taxes support schools and other local organizations.
- We provide contributions for youth development, education and civic activities.
- Aquila employees are active in the community.
- Our economic development programs help Goodland grow and prosper.

We appreciate the opportunity to serve Goodland and pledge to continue to promote and support your community.
