## Kansas' earliest CSI story

### Fingerprint ends nationwide '20s manhunt

It is fun to hear from people about their memories of the robbery and what their connection was to the events or the families involved in the story. We were talking to our mother, and she said a woman from Missouri called to ask if she was related to the author of *The Fleagle Gang*. She was telling mom how much she enjoyed reading the book.

A few days later I received a card in the mail from Mildred Cornelius of Thayer, Mo. "Your mother may have told you that I called her to inquire about you. I wanted to tell you how much I enjoyed your book about the Fleagle Gang. My family moved to Lamar the day of the robbery so don't remember much about it. I looked on Google and found your book and bought it. It inspired me to write a journal to pass on to my children about growing up in southeast Colorado. My maiden name was Keeton and I was four years ahead of your dad in school.

#### Ranked in top 20 true crime, burglary and robbery on Barnes & Noble

Author Tom (N.T.) Betz, editor of *The Goodland Star-News*, has spent a lifetime in journalism and on the Great Plains.

"The Fleagle Gang" details the robbery/murder case which hinged on a single fingerprint found on a murdered Dighton, Kan., doctor's car. The fledgling FBI plays a crucial role in turning the fingerprint into solid forensic evidence used to find, arrest and convict members of the Fleagle Gang. The FBI credits the Fleagle case as the first time a single fingerprint was used to identify and convict criminals. The Fleagle Gang robbed banks in Larned, Kinsley, Marysville, Ottawa and McPherson Kan., Lamar, Colo., Eugene, Ore., and countless others of over \$1 million in the 10 years they operated.
