care trying to figure out how to serve our patients," she said.

The government divides regions at the state line, said Administrator Jay Jolly, making it hard for patients in our area, who see doctors in Kansas and Colorado.

"I get tired of the health care maze," McCants said. "How many patients are we going to lose?"

Jolly said he couldn't understand why the VA wouldn't approve the outreach clinic.

We're not asking them to build a building," he said. "We have the infrastructure; we're just asking to be able to use it."

happening with the museum," Holton said as she handed out copies of comments visitors have written about the museum.

"The museum is a nice showcase for the county history," she said. "The problem is we are completely out of space after 47 years.

"We started looking for another place, but did not find anything suitable. We held focus group meetings with people to see what we needed in a new building,

"We hired an architect, the one who built the tourist information center, and have things ready to go do the fund raising.'

"We will have to show potential funders how the project is going to be sustained," McMinn said. "We have to keep the doors open. We are not here to ask you to help build the museum, but to ask if the city and county could help keep the museum open. We are not asking you to build it, but to have an annual budget."

McMinn said they were not asking for a specific amount, and are not asking for the county to do it all. She said she and Holton had asked the city commission for permission to talk to the county about making the museum more of a joint program.

"We have to know if this is something you would be willing to do," she said.
