High poker hand will receive a \$50 bouquet of flowers and gift basket from Prairie Petals. Must be 18 or older to win.

# Love

## Your assistance needed in survey

Local county K-State Research and Extension Family and Consumer Sciences Program County Development Committees all across the state will be conducting a survey within the next two to three weeks.

If you are asked to participate, please take about 30 minutes from your busy schedules to help us find the future direction for K-State Family and Consumer Sciences programs.

If you participate, you have the opportunity to give needs in your area and statewide.

Long-range planning efforts are beginning for a Five-Year Action Plan which covers the years 2004-

2008. Family and Consumer Sciences at Kansas State has developed a survey which will allow people to join the planning process. This survey will help us identify needs and priorities across Kansas.

It will be one of several resources used to determine statewide program directions. A summary of the information will be shared with each county.

Only a small number of people have been asked to respond, so if you were asked to participate, it is important that these surveys be completed and returned to the Extension office. Please place your completed survey in an envelope and seal it so that your participation

### Home Time

**An Eye Exam Can Save Your Vision!**

February is Macular Degeneration Awareness Month

Macular Degeneration is one of the leading causes of blindness in the United States - resulting from the destruction of light-sensitive cells in the back of the eye. Macular Degeneration affects the central part of vision which makes reading and close work difficult.

The exact cause of Macular Degeneration is unknown, but it may be related to aging, high blood pressure, smoking, and exposure to high levels of ultraviolet radiation. To help prevent this disease, the American Optometric Association recommends eating at a low-fat balanced diet, keeping blood pressure under control, avoid smoking, wearing 100% UV protection sunglasses and having an annual eye exam.

The best defense against Macular Degeneration or any other loss of sight is an annual eye health evaluation including a diagnostic exam of the back of your eyes through dilated pupils. Call Lifetime Eye Care today at 785-475-1200 to schedule an appointment or to find out more about Macular Degeneration. We care about the health of your eyes!
