Two Oberlin young men were called in death this past week.

Milo Coldren died July 19 at the age of 22 of cancer, that dread enemy of human life. He had grown up in the Herald office and it was our dream that some day we might hand down the paper to Milo as our father did to us but those dreams have been swept away by his death. Funeral services were held at the Federated Church with the Rev. Wm. Heiskell officiating and his sermon was comforting and to our way of thinking, appropriate. Pallbearers were special friends of the deceased: Dr. A. J. Thomsen, Harold Metcalf, Loy and George McMullen, Russell Anderson and Elmer Carmen.

Funeral services were held July 24 at the Federated Church for Richard Dale Wilbur who died of complications following an operation for appendicitis at the age of 19. His schoolmates were pallbearers: Denzil Gill, Tommy McKay, Ward

Claar, Carl Nicodemus, Howard daughter of Mr. and Mrs. Chas. Edwards and Lee Reeves. The Boy Scouts had a special service at the graduate of the Decatur Commu-

An auto trip Sunday to Atwood,

Trenton, McCook and back proves to us that Decatur County has better crops than the adjoining territory. Crops are immense all the way but we believe the finest piece of corn we saw is on the Smith place two miles north of Oberlin. While in Atwood we inspected their lake and must admit that Atwood has it on its neighboring towns in that particular area as it is an ideal pleasure spot for swimming and fishing in the summer and skating in the winter and is an attraction that Atwood can well be proud of.

At a meeting of the Forestry Fish and Game Commission of Kansas held recently, the Commission authorized the raising of the Sappa State Lake spillway. Many were in favor of dredging the lake but the Commission felt this would be a very costly project. Dean Fringer has sold his grocery

business located at 210 North Penn Avenue to Mrs. Clarence Bailey who has been employed part-time in the store. The Fringers have been assisted by Minnie Hitchcock and Miss Shirley Jones, both of whom will continue working.

For research this week we have worked on Fees, Silvers, Dixon, and Bryant. We found that Frank Fees lived in Olive township for 34 years from 1911-1945; Silvers came to Decatur County in 1881 and homesteaded in Logan township near Traer; Dixon lived in the Norcatur area and J.W. Dixon tended the Farmers Telephone Company switchboard for over 16 years and died in March of 1922; and Bowater Bryant and family moved to the Norcatur area in 1887. U.S.D. 294 SPECIAL SERVICES State and federal court decisions and legislation have

specified that all exceptional children have a right to a free, appropriate public education based on their needs. This means that U.S.D. 294 will identify all exceptional children; preschool as mandated, elementary and secondary, and provide the needed special education for these children in the most normal educational setting possible. Exceptional children are defined as mentally retarded, specific learning disabled, gifted, hearing impaired, language or speech impaired, personally and socially maladjusted, deaf-blind, visually impaired and physical and other health impaired. All of these special education services are available

through U.S.D. 294 or the Northwest Kansas Educational Service Center, of which U.S.D. 294 is a member. Specific steps in identifying and providing special education services are followed. All parent and student due process rights and confidentiality will be provided. All parents will be informed as soon as their child is referred for one of the special programs. Parents and, in some cases, the child, will be closely involved with the school's special service team decision. Parents may request a due process hearing. This is ordinarily not necessary if parents and school personnel work closely together for the child's benefit.

The state goals of an appropriate educational program for all exceptional students is a reflection of the philosophy of U.S.D. 294 to provide quality educational services for all children. For more information concerning the special education programs, contact your building principal or the superintendent of school. The State Department of Education can be reached by calling 1-785-296-4923, which may be called for additional information of resource materials on special education services, rights, and procedures.
