Girl Scout week observed

Girl Scouts of Sunflower Council will celebrate the history of Girl Scouting this week.

In Girl Scouts, girls from 5 to 17 enjoy fun, skill-building activities designed to enhance their self-esteem. The Oberlin Girl Scouts are making Easter decorations for Cedar Living Center, Good Samaritan Center and Wheat Ridge Terrace to honor the week.

Recently, Girl Scouts of the USA implemented a national math, science, and technology initiative to nurture girls' early interest and ability in these areas. It is part of a continuing effort to prepare today's girls to take on the technological opportunities and challenges of the 21st century.

Girl Scout Week commemorates the 1912 founding of Girl Scouting in the United States by Juliette Gordon Lowe. In the 91 years since, the organization has helped shape the lives of more than 50 million women. Student plays for Shockers

Aubrey Cameron, a 6-foot junior from Buhler, has been helping the Shockers basketball team win games at Wichita State University.

The daughter of Don and Susan Cameron, she was a 21.8-percent shooter coming into the season, 18.8 percent (18 of 96) on three-pointers. She recently came off the bench and scored a career-high 16 points in a victory over Southern Illinois. She said that confidence in her shots is rising with her playing time.

Her coach, Jan Albright, said, "I'm very proud of her. A perimeter person who wants to force the action is what we've been looking for."

Her father is a 1969 graduate of Decatur Community High School and played college basketball at Colby and McPherson. He is head basketball coach and assistant principal at Buhler High School. She is a granddaughter of Frank Cameron of Oberlin.

OBERLIN UNITED METHODIST CHURCH

Invites You to Hear

International Artist — Evangelist
Jerry Beltz

Friday, March 12
through
Sunday, March 14

Service Times
Friday - Sunday 7 p.m.
Regular Church Times
Sunday School 9:30 a.m.
Sunday Worship 10:45 a.m.

Gospel Artistry

Jerry is an outstanding church artist of our day, and possibly the only one working in acrylic paints. A picture is painted each night during meetings in full color while people watch. Then the picture is changed from a day scene to night with the use of black light and colored lights. The moon mysteriously shines, stars twinkle, lights can be seen in a distant city or suddenly go on in a church or nearby building.

To promote attendance the picture that is painted each night is given to the person who brings the most "first night guests." Some people have brought as many as 60 to 70 guests one night to win the picture.
