

**AT THE HOMECOMING PARADE** on Friday, Anne Wasson, crowned queen earlier in the day, rode in a convertible with Dani Rouse, the flower girl; Kole Breth, crown bearer; and Joe Mondero, a king candidate. Kayla Zodrow (below) cheered at the homecoming game Friday night.

## Students show spirit with cheers, floats for homecoming

Crazy outfits abounded and spirit was high at the high school last week as students prepared for Homecoming.

Pajamas and hats were only a few of the unusual outfits students wore to school during the week, getting ready for the football game and dance Friday night.

On Friday, students showed their spirit at the annual pep assembly, all dressed in red. Travis Lincoln, the athlete of the past, gave the football team a small pep talk about winning the game that night against the Oakley Plainsmen. The 10-year queen was Sarah (May) Shaw. Both graduated in 1996.

During the week, students decorated floats with the theme "Super heroes." Friday afternoon parents, alumni and family lined up on Main Street to see the

results.

The senior class took first place with Spiderman. The freshman float, the Hulk, captured second place. Juniors did the Batmobile and it took third, followed by the sophomores who came in fourth with The Incredibles.

At the game that night, a window decoration contest was judged under the stadium. The juniors took first place, the seniors and sophomores tied for second and the freshmen got third.

Jonathon Richards was named Homecoming king at the dance following the game and Anne Wasson was crowned queen at the assembly. Flower girl was Dani Rouse and the crown bearer, Kole Breth.

Despite chilly temperatures, the stands were packed Friday night for the football game. The Red Devils lost the game to the Oakley Plainsmen, 38-0.

**WITH SUPER HEROES** as the theme, the sophomore class decided to design their float around the Incredibles, an animated family of super heroes. The float won third place during homecoming activities.
