Decatur County Weather ----- July 11th - 15th

Tue	Wed	Thu	Fri	Sat
93/63	98/65	100/67	98/66	100/68

Normal High: 89
Normal Low: 61

Sunrise: 6:23 to 6:26 A.M.
Sunset: 9:10 to 9:12 P.M.

The cooler temperatures, cloudy skies and occasional storms have been nice so far this month, but that will change shortly. Other than an isolated storm or two later today the remainder of the period will turn dry with temperatures climbing to 100. Anything over 97 degrees is not good for corn that is trying to develop. To date our annual precipitation is at or slightly above the 11.50" that we should have, but any lengthy period without rain will throw us right back into drought conditions.
