FFA group attends Washington conference

munity High FFA officers have been raising money for a trip to the FFA Washington Leadership Conference.

The purpose for going is so the members can learn how to become future leaders," said FFA Advisor Jason Ketterl. "They focus on community service and leadership activities."

Students making the trip June 11 to 17 were Chet Ely, Chris Larson, Jordan Macfee, Cole May, Alyssa Montgomery and Kayla Zodrow.

"While in Washington, they picked up trash around the Capitol and also met with representatives," Mr. Ketterl said. "They had FFA meetings and reflections on what qualities leaders possess and how to take these ideas back to their home towns to implement them."

"I thought Washington was a fun and enjoyable trip and should be repeated next year," said Cole May.

For two years, the Decatur Com- the people and having fun. I met a lot of good people that I will remember for a long time."

"Raising the money for the trip was hard," Mr. Ketterl said. "The FFA has to raise money for its members and chapter activities while also raising money for the Washington trip. This year, the FFA also took 17 students to the Denver Stock Show, so the funds have to be divided. The Washington trip cost \$575 per student, plus another \$280 per student for round-trip air fare.

"This is expensive, but it is also cheap considering what they get out of it. This pays for all food, tours and housing. Among fund raisers that helped pay for the trip was the Ely bull sale, when the Elys split half of the sales proceeds of a bull with the FFA. Members sold candles, worked concessions at games, held the work auction and a trail ride, and also received donations...."

"The trip was an unforgettable 'My favorite thing was meeting all experience," said Miss Zodrow. ership and what it means. Every like to see continued each year."

"The conference was set up to push night, we would go to reflections, young adults who are already on a track for leadership to apply their we did that day and what we learned skills in the real world '

"The most fun thing we got to do was to go to the Mall, where all the memorials were," Miss Montgomery said. "My favorite was the Lincoln Memorial. Our FFA groups had to be split into two groups, since there were so many of us from all over the United States.

'We helped the homeless and discussed what we learned that we could take back to our communities to help with their needs. I learned that there is always something or someone to be helped. The best part of all was when I got to see the Declaration of Independence, as there is a possibility an ancestor in my mom's family may have been one of those who signed it.'

week, we attended meetings within the community," he said. "This is a our hotel where we discussed lead-

during which we thought over what from our new experiences throughout the day....

"On June 16, we helped with a community service project by picking kale and bagging it up so it could be prepared and donated to the homeless. This was a very memorable experience for me and I made several good friends.... I gained experience and learned many facts about our nation's history."

Mr. Ketterl drove the FFA members to Topeka on June 11, where they stayed at the home of Kent and Marcia Williams, parents of Mr. Ketterl's wife, Megan. The group returned to Kansas City on June 17, and accompanied Mr. Ketterl back to Oberlin.

"The FFA appreciates all the help Chris Larson added, "During the they received from all the people in great activity and one that I would

Impalas place in auto show

Wayne and Dixie Goltl and Marlin and Dana Marintzer attended the National Impala Association 27th International Convention and Show in Spearfish, S.D., from July 23-28 and brought home several honors on their entries.

They placed second in the Original Unrestored Judged division with their 1969 Impala Sport Coupe. Their 1967 Impala SS hardtop

placed third in the 1967 People's Choice division.

There were 76 cars from the U.S. and Canada at the show. The Goltls also attended Show and Shines in both Deadwood and Spearfish, and Mr. Goltl also won the Golden Oldie

Award for an older member who during the week the officials feel has shown pride in his or her cars and promoted the Impalas.

how the ore is mined.

Ryan Unger presented a program and byproducts, including gold and on his family's vacation and visit to Bingham Canyon Mine, southwest of Salt Lake City at the July 31 rotary meeting at The Gateway.

The huge open-pit copper mine has produced more than 6 billion tons of ore and is man's largest excavation. The top of the mine is 21/2 miles wide and the pit is 3/4 of a mile deep.

Work in the mine began in 1847 and continues daily, producing ore and harm to the environment.
