

Rawlins

Visit farm to watch pheasants

For a "cheep, cheep" experience, visit Beaver Creek Gamebirds' hatchery and adult pheasant farm.

Between April and August 200,000 pheasant chicks are hatched annually. They are shipped across the Midwest to restock hunting areas.

Beaver Creek Gamebirds also hosts unique European-style pheasant shoots.

Arrangements for a tour can be made by calling Brad Leitner at (800) 250-5999. For more information check out www.beavercreekgamebirds.com.

PHEASANT CHICKS are fun to see and a different crop to raise.

GOLF CARTS MAKE THEIR WAY along the trails at the Atwood Country Club, where duffers can enjoy nine holes north of Lake Atwood.

Golf course offers recreation, lots of fun

Atwood Country Club offers golfers a challenging nine-hole experience. The course features well-manicured grass greens framed with creeks and trees, located directly north of Lake Atwood.

The golf course was originally sand greens which were converted to grass greens in 1996. Creeks come into play on six of the nine holes as players wind their way around 80 to 100 feet tall cottonwood trees. Bluegrass fairways were

added in 2000.

In the years between 2000 and 2006, 350 new trees were planted on the golf course. Forty-one different varieties promise a colorful array of foliage throughout the year.

Walking is popular but rental carts are available. The course is open to travelers for a modest green fee. Tee times are not required.

Atwood Country Club is easily accessed from Highway 36. Guests are welcome.

Bison Compounding & Therapy

Specializing in Unique Compounded Prescriptions for Unique Medical Problems

- Bio-identical hormone replacement for men and women
- Small animal veterinary prescription treats and dial-a-dose
- Pain medications - creams to get straight to the pain
