

Welcome

U.S. 36 passes through the top 13 counties in Kansas. With the blessings of the U.S. Highway 36 Association, newspapers in seven of the counties banded together to produce this special section.

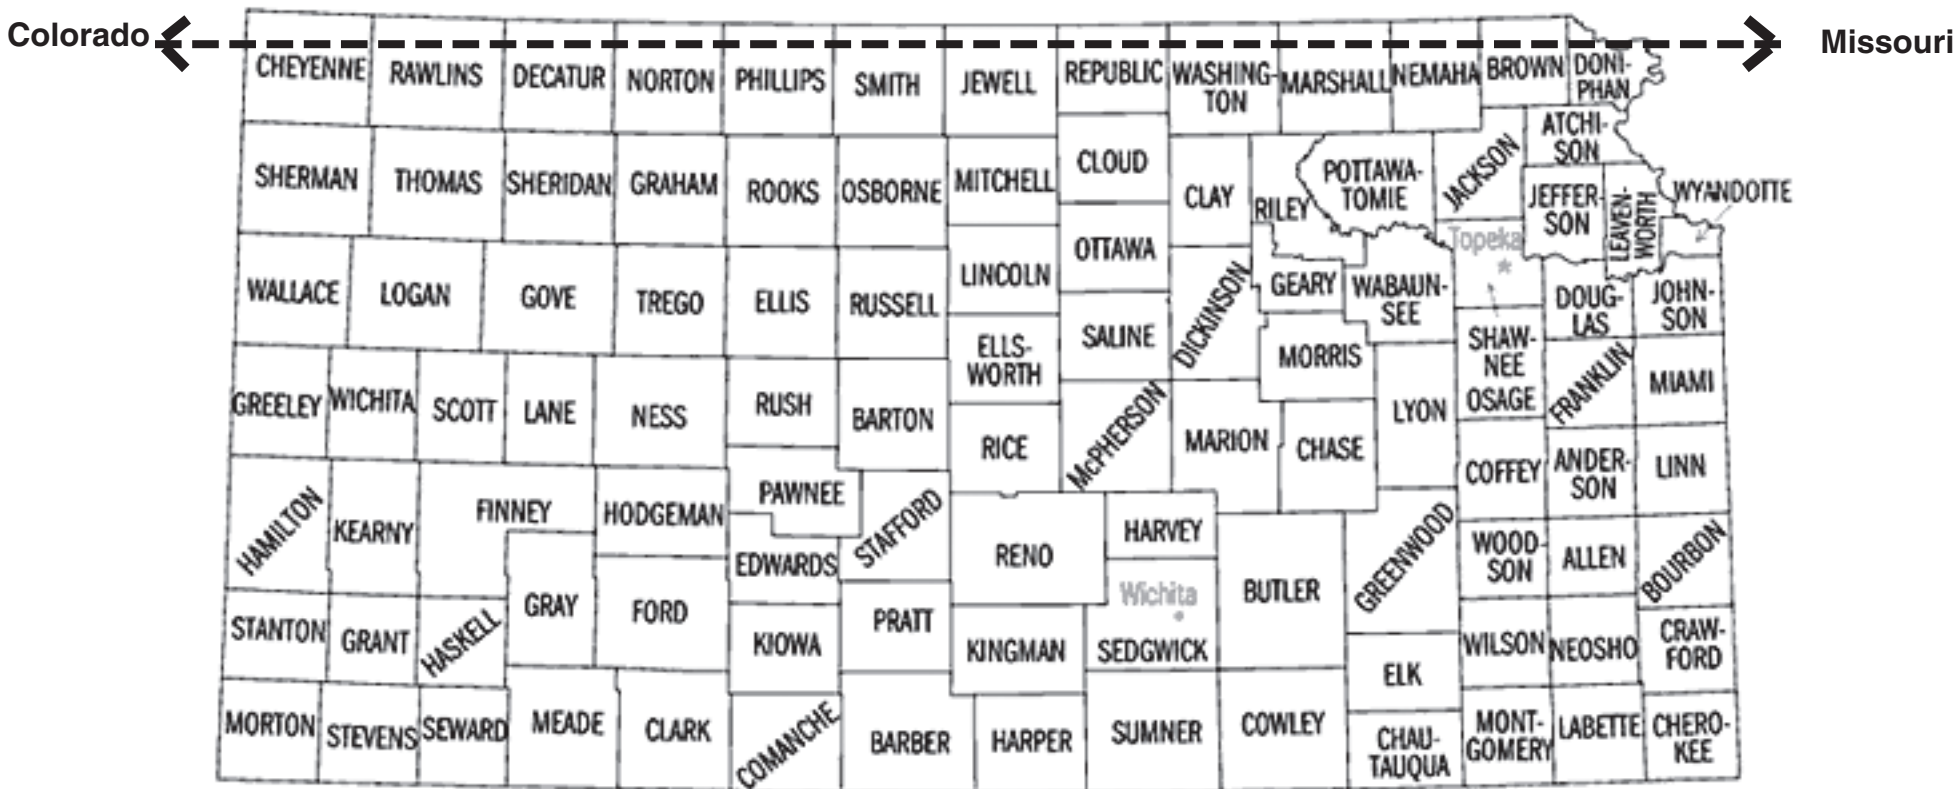

We have tried to show the beauty and places of interest in each of the 13 counties that U.S. 36 traverses as it heads across the top of the state from the Missouri River at Doniphan County to the Colorado border at Cheyenne County and beyond.

With the help of our advertisers, we want to share our cultural and historical heritage with you and to offer visitors the chance to spend an extra few minutes — or an extra few days — exploring the 13 counties along U.S. 36.

This section is laid east to west with a little about our neighbors in Colorado.

The photo on the cover, a windmill between Stuttgart and Long Island in Phillips County was taken by Randy Moll.

This section is brought to you by the staffs of
