New Weight. New Health. New You!

Now, there is hope. Hays Medical Center's Bariatric Surgery Program may help you attain a more healthy body weight and other long-term health benefits.

An August 2007 New England Journal of Medicine report says obesity is associated with increased mortality. The life expectancy of severely overweight persons is reduced by an estimated 5-20 years.

Bariatric surgery can lead to long-term weight loss and decreased mortality due to weight-related complications. The health benefits of bariatric surgery may include:

- Significant weight loss
- Lower cholesterol
- Lower blood pressure
- Improvement of Type II diabetes
- Improvement of cardiovascular health
- Relief of sleep apnea
- Relief of digestive problems
- Decreased joint pain
- Improved mobility
- Improved self image

Reclaim your life and your health.
To find out if bariatric surgery is right for you, talk to your primary care physician or call 785-623-5945 today.
