

Welcome

U.S. 36 passes along the topside of Kansas. Newspapers in the western six counties have banded together to give you an overview of what they have to offer.

With the help of our advertisers, we want to share our cultural and historical heritage with you and to offer visitors the chance to spend an extra few minutes — or an extra few days — exploring the western counties along U.S. 36.

The photo on the cover is of a windmill, which is still in use for watering livestock in Cheyenne County. Photo by Karen Krien
