

# May is Beef Month

## WE SALUTE OUR BEEF PRODUCERS

Despite the song about the "lazy days of summer," many Americans step up physical activity during summer months. What would the season be without baseball leagues, tennis matches, hikes and hours at the swimming pool?

Play hard and enjoy your favorite outdoor activities this summer by fueling your body with the proper nutrients, such as the protein found in lean beef. Scientific research shows high-quality protein, such as beef, helps people maintain a healthy body weight, build muscle and find the energy they need for physical activity - all of

which play a role in a healthful lifestyle and disease prevention, no matter the season.

So, fire up the grill, call your friends and celebrate Beef Month throughout the month of May!

—From the Beef Council
