

History to live in gym

By BROOKLYN O'HARE
The Decatur Community Junior High eighth-grade American history class will present the second annual wax museum, "A Walk Through Time," before the high school play on Saturday.

Each student in J.D. Johnson's history class has chosen a historical figure to learn more about. They will present their projects to the community between 5 and 6:45 p.m. in the high school gym.

The students had to create a timeline and a biography for their historical figure, who had to be someone from early America to the Civil War.

They also have to dress up in costume, memorize their biography, and have some sort of prop to make their presentation more interesting.

The community is welcome to come and listen to each student give the history of person they are representing.

The high school football players will also be having a taco supper in the cafeteria at the same time. Donations will be accepted.

Plan to attend the Decatur Community High School play "Meet the Maxwells" on Saturday in the auditorium.

But first, come listen to the history projects in the gym and eat tacos in the cafeteria.

The play will also be performed Sunday afternoon.
